

$$t: 5 \text{ ms/c}$$

$$U: 2 \text{ V/c}$$

Période:

$$f = \frac{1}{T}$$

$$f = \frac{1}{20 \cdot 10^{-3}} = \frac{1}{2 \cdot 10^{-2}} = \frac{1}{2} \cdot 10^2 = 0,5 \cdot 100 = 50 \text{ Hz}$$
